

(if a student)

## **First Page**

First Slide of the App: This is a basic home page that allows the user to choose if they are a student, tutor, or university staff member. (In the sketch, it is choosing the student choice)

2nd Slide: The app is asking for the user's name, name of the university, and what class they are in

3rd Slide: This lets the user choose what type of learner they are (This plays into what tutor at the university would best suit them for their learning skills)

4th Slide: This slide shows the user what number group they are in

5th Slide: This slide shows the user what tutor they are with in the group

6th Slide: This slide asks the user to choose a date to meet in the group

## **Second Page**

First Slide: This slide shows a thank you message along with confirmation of the date set for the meeting

Second Slide: This takes the user back to the home screen
